Shall we participate in the festival !!

Under recruitment of executive committees !!

About Namiki Summer Festival

Having children activities during the daytime such as carrying an Omikoshi, visiting the neighborhoods and running booths. While at night enjoying haunted house games while parents can run booths and have outdoor as well as indoor and handmade activities, Namiki Summer festival has been held since 1993, with the theme of "Let's bring up a child who can say that Namiki is my hometown". However, due to aging population; the number of executive committee and volunteers who initially agreed to the theme has been drastically decreasing making the festival administration very severe. For this reason; we kindly ask for your help to get together and make "Namiki Summer Festival, where Namiki feels like a hometown" for the sake of our young parents and small children.

We are having difficulty administering the festival due to shortage of manpower and resources.

Donation for festival administration and setting up, volunteers for holding haunted house, stall exhibitors and meal preparation is needed. Do come and volunteer with us.

Namiki Festival Executive Committee
